AUDIT TYPE:

Announced Audit

AUDIT EXECUTIVE SUMMARY:

This is a year round facility that is operated by 75 employees. The facility handles both organic and conventional product. The facility is dry packing facility of herbs. The herbs are sourced from a on site farm and a company owned farm a few miles away. There is also product from various places outside the US. The product arrives and is inspected and tagged with a PO # or other identification number. The product is stored in one of four coolers if necessary. Then the product is pulled out and ran across one of four lines with the facility. The product may be simply dry packed into a bag or clamshell or may be trimmed prior to placement or a till or calmshell. The items are then marked with a identifier and then palletized and placed back into a designated cooler until shipment. There was review of records including but not limited to sanitation, pest control, shipping and others. Microbial testing is conducted on site monthly and review of lab results.

Addendum(s)/Module(s) included in the audit:

Not Applicable

Product information for each product

Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Kale	Observed on the day of audit	Year round	United States
Parsley (Herb)	Observed on the day of audit	Year round	United States
Chard	Observed on the day of audit	Year round	United States
